

TYPO3 Developer

COMA VALENCIA S.L. – DIGITAL MARKETING

We are looking for a **TYPO3 Developer for our office in Valencia**, who has extensive experience in web development with PHP. TYPO3 is our first choice when it comes to sophisticated CMS solutions. Our well-rehearsed team of TYPO3 developers is actively involved in the TYPO3 scene and is always available to advise our clients. As soon as possible, we need your support in a permanent position for our DEV unit in Valencia, Spain.

WHOM WE'RE LOOKING FOR

- You write clean, performant and sustainable code.
- You bring the following technology stack with you:
- Experience in implementing complex TYPO3 systems.
- Good knowledge in the development of TYPO3 extensions
- Solid expertise in CSS3, HTML5 and PHP.
- Good knowledge of HTML5.
- Experience with build automation and deployment.
- You take responsibility for your work.
- You think along and question critically, but also in an advisory capacity.
- You like to deal with new technologies.

OUR OFFER

- A dynamic agency environment with versatile, well-known clients and exciting projects.
- You will work in an interdisciplinary and international team (daily cooperation with German headquarter in München)
- Familiar working atmosphere with motivated and friendly colleagues.
- Attractive conditions and diverse career development opportunities await you.
- We offer you flexible working hours in a flat hierarchy and short decision-making paths.
- Pleasant working conditions in offices of 2 or 3 employees.

We implement web-based applications. Whether websites or individual applications, we have the right web technology in our portfolio. Always together with high-quality design and goal-oriented user experience. We are owner-managed and located in the city center of Valencia since 2016, in addition to our main location in Munich, which was founded in 2000.

Sounds interesting?
